A. Matters Referred to Master. See Status Report § VII.

B. Master's Fees

- C. Defendants' Motion to Implement a Deposition Protocol in the Wire Harness Case (Plaintiffs believe that this motion is premature because the parties are still engaged in the meet and confer process regarding a Deposition Protocol, making this issue not ripe for motion practice at this time).
- D. Coordinated Discovery (Defendants believe that this topic is premature because the issue of coordinated discovery has been referred to the Master, and the Master has not had an opportunity discuss with the parties); and
- E. End-Payor's Objection to Master's Order Regarding End-Payors' Motion to Compel Interrogatory Responses (Defendants believe that this topic is premature because End-Payors have not yet filed objections and Defendants' responses will not be due before the Status Conference, making this issue not ripe for the Court's consideration pursuant to the Court's Order Appointing a Master--Plaintiffs will likely ask for expedited consideration).
